**TO PARTNER WITH US!**

It has been said that teachers touch the future because they teach. Our collective future as a society is, in no small measure, dependent upon the knowledge, skill, energy, and dedication of our nation's educators. Much is owed to those who daily provide that service—both now in the classroom, as well as after a teaching career has concluded. That is why we have public pension plans for our teachers and school personnel, and those plans are why there is a National Council on Teacher Retirement. Retirement security for America's teachers is the mission we share with our teacher retirement systems.

It is also why so many companies are such a vital part of NCTR. Asset management, actuarial, information technology, legal, and consulting firms have joined NCTR because their membership has not only proven to be good business, but business with a good purpose. These partnerships advance the retirement security interests of those who are shaping our future. And there is nothing wrong with doing well, while you are doing good. I invite you to partner with us in this effort.
