9:00 – 10:00 a.m.	Introductions and General Roundtable Discussion
10:00 – 11:00 a.m.	Navigating Technological Integration in Member Services and Communications for Pension Fund Managers <p>In today's rapidly evolving digital landscape, pension fund managers are tasked with navigating the complex terrain of technological integration in member services and communications. The advent of cutting-edge technologies has revolutionized the way pension funds engage with their stakeholders, offering unprecedented opportunities for streamlined communication and enhanced accessibility to information. However, harnessing the full potential of these advancements while ensuring seamless integration into existing customer service processes presents unique challenges, particularly in catering to the diverse needs of older clients who may not be as adept with technology.</p> <p>This session will dive into the intricacies of technological integration within the realm of member services and communications for pension fund managers. Attendees will share valuable insights on navigating the complexities of incorporating new technologies while maintaining a customer-centric approach, through a comprehensive exploration of best practices and real-world examples. Join us as we explore the intersection of technology and member services, empowering you to leverage innovative solutions for superior client engagement and satisfaction.</p>
